Public Instruction

Regional Outreach Training 2005 - 2006

We are pleased to offer you the Exceptional Student Services (ESS) Regional Outreach Training 2005-2006 schedule. Six topics will be offered from September through March. Each month a topic will be presented across the state by the ESS staff. For further information about each training program, please contact the Educational Program Specialist who is assigned to your district or charter.

This booklet contains the title of the training with its description, as well as the target audience, training dates, times and site locations. You will also find registration information and a training program contact person listed below. This booklet is also available on our web site at: www.ade.az.gov.

Please be sure to check for updates to the schedule and site locations on our web site before attending since some dates and locations may change.

Exceptional Student Services looks forward to working with you, our partners,
in supporting students with disabilities across Arizona.

Registration

All trainings are free, however, registration is required. We are asking you to please complete your registration *no later than one week before the offered training date*. This is extremely important because each site has an absolute room capacity, which may not be exceeded.

A minimum of five registrations one week prior will be required to guarantee the training.

You may register on our web site at www.ade.az.gov/onlineregistration. If you do not have Internet access, you may register through Kat Kozell at the Arizona Department of Education or contact her to request specific accommodations. Many of the sites do not have access to food and drinks, so it is advisable to bring what you will need to be comfortable.

If you are unsure of the location of a site, please consider searching for a map on the Internet with a tool such as:

MapQuest <http://www.mapquest.com/> or Yahoo Maps <http://maps.yahoo.com/>

For registration other than on our web site and general training program information, please contact:

Kat Kozell
Administrative Assistant III

~ March 2006 ~

TITLE: "Response to Intervention (RTI): A New Way of Determining Specific Learning Disability"
TARGET GROUP: Special Education Directors/Assistant Directors, Related Service Providers, Principals, Regular Educators and Special Educators
DESCRIPTION: IDEA '04 allows districts to use "response to intervention" procedures as part of the special education identification process to determine eligibility as SLD. RTI has certain required components that include school-wide screening, data driven decisions, and scientifically based interventions. Participants in this training will receive an overview of the RTI process and how it might be implemented in your schools. Great information for building assistance teams.
